Experience

Hackathon leader September 2022

Hackatec-ITZacatepec - zacatepec.tecnm.mx

- I took the initiative to participate in a hackathon. In which I was the leader of my team and because of the way I expressed myself we got a recognition of a company.
- I developed an artificial intelligence with data given from a government database.

Fullstack developer April 2022 - Currently

Tutorial App - tutorial-app-isai.netlify.app

- I developed a tutorials application in order to help users to do things they don't know how to do.
- I designed a CRUD with tools for the frontend and the backend.

Competitor June 2021 - September 2021

OMRI - omri.com.mx

- As part of a statewide programming olympiad, I solved logical programming problems in the C++ language.

Fontend developer May 2021 - October 2021

ORDEEM - ordeem.com

- I created a delivery app, a local delivery venture to facilitate shopping for mainly senior people.
 - I used React JS and its hooks for the development of the app.
-

Education

Técnico en programación 2019 - Currently

Centro de Bachillerato Tecnológico Agropecuario No. 39
