- Leadership
  - Teamwork
  - Logic problem solving
  - Understanding
  - Respectful
- 

### Hobbies

- Learn new technologies
- Sports

## Experience

### Hackathon leader    September 2022

Hackatec-ITZacatepec - [zacatepec.tecnm.mx](https://zacatepec.tecnm.mx)

- I took the initiative to participate in a hackathon. In which I was the leader of my team and because of the way I expressed myself we got a recognition of a company.
- I developed an artificial intelligence with data given from a government database.

### Fullstack developer    April 2022 - Currently

Tutorial App - [tutorial-app-isai.netlify.app](https://tutorial-app-isai.netlify.app)

- I developed a tutorials application in order to help users to do things they don't know how to do.
- I designed a CRUD with tools for the frontend and the backend.

### Competitor    June 2021 - September 2021

OMRI - [omri.com.mx](https://omri.com.mx)

- As part of a statewide programming olympiad, I solved logical programming problems in the C++ language.

### Fontend developer    May 2021 - October 2021

ORDEEM - [ordeem.netlify.app](https://ordeem.netlify.app)

- I created a delivery app, a local delivery venture to facilitate shopping for mainly senior people.
  - I used React JS and its hooks for the development of the app.
- 

## Education

### Computer systems engineer    Currently

Instituto Tecnológico de Zacatepec
